THE GREAT
American Discovery
—IS—
Dr. Barber's Diapent.

THIS valuable Medicine is composed principally of Herbs, by whose extracting and penetrating properties, when applied, instantly diffused through the whole system, allaying the most intense pain in a few minutes. You have only to try it, when you will be convinced that its operation is confined to the seat of pain, for the relief of the afflicted, possesses in so high a degree the three Anodyne qualities of its action in all cases, prompt, powerful, and effectual, without the least endangering the system.

It penetrates the flesh to the bone, relaxes the contracted muscular powers, restoring free use to the joints and limbs, which have been rendered the victims of disease almost entirely useless. It is, therefore, hailed by the suffering as the greatest blessing of the age, and no one would ever allow himself to be without this sovereign balm after having once witnessed its magic influence over disease, and its potency in relieving pain, however great. The perfect confidence of its unquestionable efficacy, by actual experiment makes me bold in asserting its transcendent virtues. By referring to the numerous certificates in the hands of my Agents, which were given voluntarily and cheerfully from a sense of gratitude and justice, by persons of the first respectability, (and where statements admit of no doubt,) you will find it has no equal in the whole world, for a speedy, certain, and lasting cure of Rheumatism. It will also cure Neuralgia, Pains in the Side and Back, Cramps, Scaldings, Bruises, Weaknesses of Joints, Sprains, &c. Also, Dyspepsia, and all Nervous Diseases proceeding from the Stomach. Also, *Dr. Barber's Cure Resolvent*, a sure remedy for Corns, Bunions, &c. Sold by Hyatt & Sons, A. B. & D. Sands, Park & Perry, Boston; at all dealers of Patent Medicines.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON
No. 75 State Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in obtaining for patents, superior to those offered inventors by others, has made arrangements, whereby, on application, (by mail or otherwise,) full information will be received and rendered by him. IN FIVE DOLLARS, (the fee of *twenty*, as paid fixed by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, therefore, by him, within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers, will be drawn for procuring patents in the *best Courts* in the United States, and in all foreign countries, prepared, and every advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 33 per cent less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, his visits to the Patent Office, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being located a journey to Washington, the usual and legal delay there, as well as personal trouble in procuring their patents. Copies of claims of any patent, furnished by remitting *one dollar*. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

H. H. EDDY, *Solicitor of Patents.*

[From the Boston Courier.]

During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, was known as one of the most successful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more intelligent and trustworthy, and more reliable person for getting their applications in a form to secure them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

[From the same.]

Boston, Oct. 1853.—During the time I have held the office of U. S. Commissioner of Patents in this city, Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. Here thoroughly established with fine law, and there are few persons in the office I have had more frequent or more successful transactions with than with those named in the above. CHARLES MASON,
Late Commissioner of Patents.

DE GUINDA'S IMPROVED
Non-Explosive Amphene & Fluid

LAMPS and CANS.

THE AGENCY purchased of the Patent right for the State of Maine for the above Lamps, Fluid and Burners, is to offer them to the public as the best adapted to the use of Parlors, Churches, Factories, Vessels, Steamboats, and Hall.

The Lamps are constructed on scientific and philosophical principles, and are the only ones in operation against explosions from Camphene and other Fluids, being capable of the most durable use, subject to accident from carelessness or ignorance, will burn with smoke, offering an easy, steady light of the purest description.

The above Lamps have proved, after three years use, to be the best Lamps in use, giving universal satisfaction, and are warranted to be so. The Lamps will be sold at wholesale or retail at one fourth the price of the ordinary Camphene and Fluid Lamp.

SINGER'S
SEWING MACHINES!

THESE machines have long sustained the highest reputation in the United States.—THE FIRST PRIZE—a GOLD MEDAL—has recently been awarded to them at the great Exposition of the Palace of Industry in Paris, and thus they have the World's verdict of superiority.

Great improvements have just been added, so that they run without noise, with ease to the operator, at double the ordinary speed, and fast.

Twice as much Work can be done in a day. The greatest clothing and shoe manufacturing establishment in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect manner.

As there are very great numbers of inferior or entirely worthless sewing machines of the Lerow & Blodgett, Avery, Wilson, Grover & Baker and other patents, which have been sold, but cannot be used to any advantage, we hereby offer to receive all such machines, and also unimproved ones of our own manufacture, *in exchange for new and latest improved machines on liberal terms.* All of machines thus obtained by us will be thoroughly repaired, and for particulars apply by letter or personally at our York Office.

N. B. Local agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.

What shall be Done?

The present condition of things in the Territory of Kansas portends civil war. Governor Shannon and the other Federal authorities have declared that the acts passed by the Legislature elected for the Territory by Missouri ruffians, with bowie knife and pistol in hand, must and shall be received as the laws of the Territory,—that all who oppose their execution are guilty of treason,—that all who have engaged in forwarding the "free State movement," in adopting a constitution, calling an election under it, &c., are both rebels and traitors,—and that the military force of the federal government, aided by Missouri militia if necessary, will be put in requisition to sustain the authority of the Legislature, elected as we have stated.

On the other hand, a large majority of the actual settlers of the Territory have repudiated and do utterly repudiate the miscalled Legislature imposed upon them by open, unblushing and undeniable outrage upon the purity of the ballot-box—and having no legal government whatever—the elections under the territorial act having been fraudulently taken out of their hands—they have fallen back upon their own original sovereignty, and taken the only course which seemed open to them, viz. the calling of a convention of the actual and bona fide settlers for the formation of a State Constitution. This convention was necessarily called by the people themselves—there being no legally constituted authorities in the Territory, competent to call it, and a state of anarchy existing. The doctrine that the people have this original right of framing a government for themselves, in case of emergency,—the right even of revolution—has been fully recognized by the democratic party, to which President Pierce belongs, and was *carried out* in its extreme limit in the case of the famous Dorrite controversy in Rhode Island a few years ago, when there was, in fact, a legal government existing. The complicity of the imposed legislature with the Missouri invasion, and the fact that the people of Kansas have not been represented in it, furnish a sufficient reason why they should not recognize its laws. But if we can believe U. S. Senator Pierce, the National administration is pledged to move at all to protect the bogus Legislature in Kansas,) has determined to enforce the authority of this sham Legislature at the point of the bayonet. The United States troops are to be employed against the people of Kansas, aided, if necessary, by volunteers from Missouri—and thus *slavery is to be established in Kansas*, BY FORCE AND ILLEGALLY EJECTED SLAVE-HOLDING LEGISLATURE. And this is to be done by the National Government! And done, too, at the imminent risk—nay almost certainty—of a bloody civil war; for the free State men of Kansas are not disposed to submit quietly to such enormous injustice. They have taken measures to establish a government for themselves as the people of California did before them, and are likely to stand by their rights so long as they have strength to maintain them. It is evident that the power of the General Government and the strength of the Missouri slaveholders will be greater than they can alone contend with.

What then remains but submission, for a time, to this wrong and outrage? There is only one alternative—(unless Congress overthrows the usurpers)—and that is too horrible to contemplate for a moment—an armed interference by the people of the free States. This is not to be thought of, unless we wish to involve the whole country in the horrors of civil war, revolution and anarchy. But let us still rely upon the constitutional power of the ballot-box to right this enormous wrong. Let the people be freemen, in the coming political campaign, and place the Federal Government in the hands of men who will not outrage every sentiment of freedom and justice. This is the only peaceable mode of meeting these alarming difficulties.

The crisis which has now been reached in the affairs of Kansas shows most conclusively, that this slavery question *must* be met and settled, or the Union will be destroyed by the acts of the slaveholders themselves. The *necessity* for a union of political parties in the North, to meet this portentous question, has now become absolute. It has come to the issue in the affairs of Kansas, which cannot be ignored or winked out of sight. If civil war is to be averted, it must be upon the Republican platform, and by proper constitutional action, interposed a barrier to the further advancement of slavery. Let every thoughtful man look himself in the face, and see if there is not the only means of averting the horrors of civil war—if indeed, they can now be averted?

NEGROES IN MISSOURI.—The Missouri Legislature is now under consideration a severe law against free negroes. The principal features are as follows: First, no slave hereafter to be emancipated in the State. Second, not a free negro permitted to come into, or remain in the State for more than thirty days. Third, to pay a fee of fifty dollars to come into the State, in violation of this law. Fourth, no negro or mulatto to be hereafter capable of holding real estate in the State by purchase, gift, grant, devise or inheritance, and no free negro now in the State, shall contract made with any free negro or mulatto, whose name the State, in violation of law, null and void.

MISSOURI.—It is stated that an effort is being made in the Missouri Legislature to make a gerrymander which will secure the re-election of Senator Atchison, "the eminent border ruffian," as the New York Tribune calls him. Atchison is the candidate of the Anti-Benton Democrats. The Whigs desire to elevate to the Senatorial chair Col. Benjamin, the hero of Chihuahua. It is now proposed that these historic and patriotic parties should combine and elect both their men—Atchison for six years from March 1, 1855, and Benjamin for six years from March, 1857. This is a fine device to circumvent the friends of Mr. Benton—it said to be likely to succeed.

The Democrat says it has not proposed to have a bill for a new liquor law submitted to the people, for them to vote upon but, "that they might examine it and confer with the Senators and representatives, in regard to its being enacted by the present Legislature."

We cordially supposed, from its language, that such a submission was suggested. We hoped that no bill would be passed until it was laid before the people, and the necessary, *ex officio* to examine it. But as we were in error as to the suggestion, our remarks on that head will not do be uncalled for.

The Argus suggests that the district delegates to the Democratic National Convention (as well as the delegates at large,) be selected by a caucus of the *Democratic members of the Legislature*. This very democratic method is not approved of by the Democrats of this city, although the editor intimates that he will agree to anything which means "the general sentiment." It will probably make but little difference how they are selected—as the same managers will fix up the men, whether they be chosen at August, or in the several districts.

A gold medal for Capt. Ingraham has been struck at the Philadelphia mint, and sent to the president. It weighs 2½ ounces. The face represents the American and Austrian vessels at anchor before Smyrna, and the obverse has the following inscription on it:—Presented by the President of the United States in Commander Ingraham as a testimonial of the high sense entertained by Congress of his gallant and judicious conduct on the 2d of July 1853."

MASSACHUSETTS CONGRESS.—The first lecture of the course before the Mercantile Association, will be delivered at Norombega Hall by Bayard Taylor, on Thursday evening. Subject:—"The Arabs."

The course of lectures promises to be one eminently redeeming the patronage of the good people of Bangor and vicinity.

THE LATE BRAZILIAN LOSS.—A letter from St. Petersburg says:—"The new recruitment has thrown the country into terror. It is doubted if 400,000 men capable of service can be found. The town and districts furnishing the recruits will be obliged to provide them with *fardeaux*, which is already a burden, owing to the present high prices of fare."

Showing the Improvements and Travelling on the Present Methods of Reaching the Central City. By George Wood author of "Peter Schlemihl in America." Easton: Hilliard, Gray, Little & Wilkins, Simpson & Co. 2 vols., 12mo, pp. 396.

We have here a very handsome volumes, an allegorical work in the style of the Pilgrims' Progress, but suggested at the author says, by Hawthorne's Celestial Railroad. It is evidently written with much ability, and is a production of no common order. We have not had time to give it a thorough examination, we perceive that it furnishes a rich series of allegorical representations of modern fashionable follies, and vices, and hypocrisies of the day, are shown up with the most effective satire. The following extract of a notice by a contemporary, will show the plan and character of the work:

The two heroes and the two heroines, having made up their minds, after considerable trouble to start for the "Celestial City" leave the modern Babylon, (New York,) and commence their journey, to the surprise of their fashionable friends, and amid the contempt of the many 'guides,' whose good offices have been refused. They take with them the standard "Guide Book," only approved by Mr. Conscience. Upon the road they visit the cities of Vanity Fair and Sterling, and residing some time in each, meet with divers adventures and mishaps.—Afterwards they are almost lost in the Slough of Despond, but finally they arrive at the Celestial City in tolerable order. As may be surmised, this plot furnishes every opportunity for the sharpest satire, and the keenest ridicule, and it must be acknowledged that Mr. Wood is an adept at both. Many of his pages are as interesting as they are wise and shrewd.—Shafts of all kinds, whether in modesty, love, courage, politics, religion, society, or what not, are learnedly and cleverly exposed. It is elaborated with ingenuity, and it displays learning and research. In fine it is a queer book—attractive, if not to be read at a sitting.

WINSLOW AND L. Vol. 12mo. New York: J. C. Derby, 1855.

We have not the time necessary for a perusal of this work; but it is evidently a well written and interesting story of domestic life and trials—inculcating the value and efficacy of moral and religious principle. The name of the author is not given. The typographical execution of the work is very handsome.

WENDELL PHILLIPS.—This finished scholar, and accomplished orator, is to deliver two lectures before the Bangor Anti-Slavery Association on the "Independent course." The first, this evening, at Norombega Hall. Mr. Phillips has recently been lecturing at the West, and has obtained the highest encomiums from both friend and foe. Our citizens know something of him, and will not fail to take advantage of this opportunity to listen to his glowing eloquence.

HOUSE BURNED.—On Saturday evening last, the cost of Gen. W. Pickering, Esq., President of the Kenduskeag Bank, and of the Kennebec R. R. Co., was taken from the entry of his house. In it was his pocket-book containing about $100 in bank notes. Mr. P. was to leave for Boston on Monday morning, and had a large sum of money, to carry on for the Railroad Company, but in was in a place of security.

There were two arrivals of vessels at this port yesterday—one from Philadelphia, with coal to Baldwin & Bacon, and the other from Delaware city, with lime to Hinkley & Magery. The weather has been mild for some days.

SPONGES.—Last year 25,000,000 sponges were sent to New York from Florida. Five years ago they cost 12½ cents a pound in Florida, and now 50 cents. The annual value of the shipment to New York is $150,000.

A New Haven paper, describing the localities of three prominent institutions of that city, says: "The Medical College is on the road to the cemetery, the University College on the road to the poor houses, and the Law School on the road to the jail."

Bills on the Grocers' Bank, Boston, were sold in Boston, on Friday, at a large discount, but the Boston Journal says there are ample means to cover all the liabilities to the public. There has been distinguished rascality however on the part of some of the bank officers.

The Courier of Saturday says:

The Bank Commissioners yesterday morning, put an injunction on the Grocers' Bank, and the other banks refuse to take the bills. It is feared that there is an over issue of bills by the Cashier, Elias E. Knowlton. The injunction is laid until December 4, when an opportunity will be given the Bank to show cause why it should not be perpetual. It is stated that the amount of over issue of bills was about $108,000, and that $83,000 has been pledged in one lot in the street for loans.

It is stated that a school or college for Turkish Youth is about to be established at Washington, the Sultan having made a grant of 1,500,000 francs for this purpose. Here some 300 Mussulmans will be instructed in the European languages, the sciences, and the arts applied to industry.

We trust nobody will start for California on the strength of the following dazzling accounts, as they are probably just as deceptive as the "Gold Lake" stories of last year:

Extensive Gold Discoveries in Tuolumne County.

The Tuolumne county papers are filled with glowing accounts of the recent discoveries of vast deposits of gold in Table Mountain. This mountain makes its first appearance in Calaveras county, and extends across the Stanislaus river into Tuolumne, passing in the neighborhood of Sonora, Columbus, Jamestown, Montezuma, etc., and thence by a serpentine course in a bold and well defined line, from three hundred to one thousand feet wide at the summit, it again strikes the Stanislaus at Burns' ferry, and extends thence over into Amador county.

There have been some surprising gold discoveries made by tunnelling this mountain in various places, and at present many speculative theories are entertained as to the extent of its auriferous deposites. The Sonora Herald thinks there is more gold in its bowels than has yet been taken from California. The Union Democrat does also details as follows:—

Many feet beneath the surface of this mountain is now found the bed of an ancient river, with its water-worn boulders, broken quartz, gravel, sand and clay, among which is profusely distributed the rich auriferous deposite. We have also been taken from this mountain, at a depth of one hundred and fifteen feet beneath the surface, large pieces of oak, cedar and pine trees, some in their natural state, others partly petrified. What is deemed the bed of this ancient stream, at a point where it enters the mountain, under Shaw's flat is about one hundred feet wide. The river gravel, or 'pay dirt,' as it is professionally termed, varies in depth from six inches to six feet. One hundred feet square of this dirt, which has been lately worked, was found to contain over one hundred thousand dollars. The gold is of the purest and richest description, selling here at eighteen dollars and a quarter per ounce, and yielding at the mint nineteen dollars.

The presumption is that the same lead extends throughout the entire length and breadth of the mountain, which is here ten in width as it approaches the plains. Numerous tunnels and shafts are now being driven into it in search of its hidden treasures.

That this mountain contained gold has long been an unquestioned fact, yet the most sanguine were little prepared to realize that vast amounts of its mineral resources which recent developments have placed beyond controversy. Within the last few weeks Table Mountain has been the universal theme of conversation—claims have been taken up, bought and sold at enormous rates, immense and passed into litigation. In fact, Table Mountain seems to be in everybody's mouth, and its uncounted treasures every body's hope. The excitement in reference to it gathers impetus, as new truths and new discoveries are brought to light—truths which settle the disputed problem that it is the richest region in California. The Herald corroborates the most glowing descriptions of the richness of this mountain. It says:—

"Wherever the miners have succeeded in penetrating the interior of the mountain, they find the precious metal in vast quantities—almost too vast for credence, were it not amply corroborated by ocular proof.

"Many claims are turning out, it is reported, from two to seven pounds of gold per day, and the miners do not work very hard at that. We have been told by many who saw that buckets full of dirt are taken out that would average a pound of gold to a pint of dirt. These statements are not made for the purpose of exciting the public mind, but are actual facts as they really exist.

From the discoveries that have been recently made, it is now pretty generally conceded that the lead of gold runs the entire length of the mountain, without any break or perceptible one. In places, for more than seven miles in length, such prospects have been obtained. At the present rate of claims there is ample room for the employment of six thousand men, at the least, on this mountain, and there is the best reason in the world for believing that they would all receive a fair remuneration for their labor.

THE SENATORIAL VACANCIES.—In the First District (York) the number required for a choice is 6712. Alexander Jackson has 6356, Alexander Judkins 378. Giving Mr. Judkins these latter votes which were undoubtedly intended for him and he is elected. The town of Elliot made a blank return.

In the third District (Lincoln) 6965 votes are required for a choice. E. Wilder Farley has 6223. Ephraim Wilder Farley 906. Mr. Farley will undoubtedly be admitted as a seat, the Senate having the power to decide upon the returns.

In the fifth District (Waldo) 4362 votes are necessary for a choice. A. S. Reagan has 2246. Samuel S. Reagan 1815. Mr. Reagan will be admitted as he ought to be.

In the seventh District (Washington) 2 requires 2857 votes for a election. Samuel H. Talbot has 2568. S. E. Talbot 342. Aaron Hayden has 2334. A. Hayden 422. Both three gentlemen will be declared elected by the Senate.

In the eighth District (Aroostook) there is no choice and the constitutional candidates are Nathaniel Blake (Rep.) who received 782 votes and Ezekiel D. French (Dem.) who received 728 votes.

In the ninth District (Penobscot) there is no choice—three vacancies.

In the tenth District (Piscataquis) there is no choice. Mr. Elliot the Republican candidate lacked two votes of an election.

In the twelfth District (Franklin) 2039 votes are required for a choice. Francis G. Butler has 1769. F. G. Butler 203. Francis Goold Butler 153. Mr. Butler will be admitted to the seat by the Senate.

In examining the returns, the Governor and Council have followed the precedents established by former actions in these cases. Although there can be no doubt but the votes were all intended for the same person, and we have no doubt the votes were all plotted alike, and that the errors were made by the returning officers, yet no discretion is left to the act of the Governor and Council so to decide. That question is left to the Senate, who will see that justice is done in the premises.—*Portland Advertiser.*

EMIGRATION TO KANSAS.—The Kansas Herald of Freedom says:

"It is indeed surprising to see the crowds which are wending their way daily into the Territory. If the reports which reach us from all quarters are reliable, and we believe they are, our population will nearly equal seventy thousand by the first of December and the spring emigration will make us equal from ninety to one hundred thousand. Congress can hardly refuse us admittance into the Union for the want of sufficient population, for we shall reach the requisite number ere the bill is acted upon by that body which endorsed our State constitution."

A NEW INSTITUTION.—A stranger, evidently from the rural districts, inquired of a citizen on Bowdoin square a few days since, if he would be kind enough to direct him to the Eye and Ear *Foundery*." Ruth Tertington thinks the men had an "infirmary" in his speech.

APPOINTMENT BY THE GOVERNOR.—Hon. Jos. Bell of Merton, has been appointed by the Gov. Judge of Probate for this County—vice Hon. Ephraim Eastard deceased.—*Piscataquis Observer.*

New Dome of the Capitol.

—The Washington correspondent of the Baltimore Sun says the old dome is fast disappearing. When removed it will be superseded by one far exceedence even that of the celebrated St. Peters. The beautiful dimension of Professor Walters will rise three hundred feet above the pavement floor, and eighty feet above the present structure. It will contain one hundred and twenty-four windows, many of which will be eighteen feet in height, decorated with embellishments which will be emblematical of the most important events in American history and such arrangements have been adopted that all visitors, from those in the spring time of life, to the hoary-headed veteran, can easily ascend, and from the loftiest of all our lofty eminences behold the extent and grandeur of the national metropolis.

GRANITE DUST.—A correspondent of the Washington Intelligencer says:—

"While examining the granite quarries at Northbridge, Massachusetts, a few days since, I had a conversation with the workmen who were dressing out the stone, in reference to the dust that they were rapping off with a flat piece of board from the face of the stone they were hammering. The dust is reduced in the hammering of the stone to an impalpable powder, and will float in the air. I said to them that it would be well to try the vegetating powers of this granite in a hill of corn. They replied that it had been used in gardens and on grass lands with great success, and that it was equal to the best manure. This fact is of great importance to agricultural science, for it opens a newly discovered source of wealth in the rocky lands. The granite rocks that are now barren may be ground to an impalpable powder and used as a fertilizer. Granite is regarded as a primitive rock and may therefore be supposed to possess extraordinary fertilizing power, as it was in being before the rains descended upon the earth."

A WOMAN BURIED ALIVE IN PIEDMONT.—A distressing case occurred in Monesglio (Piedmont) on the 30th ult. A woman who had had a violent attack of cholera had been buried the evening before. In the morning a countryman, passing near her grave, heard some moans issuing from it, but instead of informing the authorities, he contented himself with impressing the circumstance to a farmer living hard by, who took no further notice of the matter. This very farmer hearing the same moans in the evening, got frightened and ran home without mentioning a syllable of the matter to any one until the morning after. The parish authorities immediately proceeded to open the grave but it was too late, the poor victim was dead, evidences of her having been buried alive was furnished by her shroud, which she had thrown off during her agony.—*Galignani's Messenger.*

FELIX REARON.—There was a famous Irish member of Parliament, who was a glutton at dinner, and who was remarkable for his neglect of all ablutions. Having one day standing in the bow-window of the club-house in London, conversing with Lord Somebody, when the latter passed down on the opposite side of the street.

"Jack, said the noble lord, what does make your father's hands so dirty?"

"Well," said the affectionate young man, "I believe it arises from a bad habit he has of putting them up to his face."

THE WEATHER here is mild and fine, with very little frost. At Fredericton yesterday the weather was mild, but the ice in the river was firm. At Woodstock, at 8 A. M. it was cloudy and mild, the ice still running. At Quebec, at 8 A. M., yesterday, it was cloudy and cold, with appearance of snow. The ferry steamers had stopped running and the crossing was in canoes.—*St. John News Brunswicker, 29th.*

Which is the best way to make a coat last? Why, make the vest and trousers first.

When does a man look like a cannon ball? When he looks round.

A woman charged with being drunk and disorderly, denied the latter offence saying that she was too drunk to be disorderly."

It is [illegible] complied with, it will be [illegible] copied [illegible] as it is delivered, and transmitted over the wires. Many [illegible] as will be telegraphed.

Second Ballot.—The following is the second ballot for Speaker: Fuller 108, Campbell 71, Orr 20, Banks of Mass. 22, Fuller of Pa. 1, Campbell of Ohio 1, Pennington 7, Harlan 5, Wheeler 1, Washburn of Me. 2 and Aiken of South Carolina 1.

Fourth Ballot.—The fourth ballot was the last, each candidate who had voted for Campbell, changed from scattering to Goodrich for Campbell.

Despatches by the Atlantic represent that England is wholly unchanged in her manner of treating the Canada question. Both Lord Clarendon and the British Cabinet refuse to take any action to patch up a reply to our government in regard to the seizure of vessels in question, under the laws by British officers, and declare that they will not be induced to would be sending a message to Congress, and that they should adhere to their original position.

Our government has formally accepted the proposal of Denmark to accept a commutation of a tax according to the value of the present Sound dues, and rejected the proposition.

Canvassers were busily at work last night.

It is generally understood that the Democrats and Whigs, numbering in respect all factions will have a majority of 15 to 20 on joint ballot. There is no hope of defeating them.

Messrs. Keasley, Woodward and Sewall are working all day to effect a reconstruction of the Know Nothing organization of the House, to-morrow.

Message on Wednesday.

Second Ballot.

The National Intelligencer will vote for Mr Fuller, and endeavor to get a few more democratic votes on him, so as to elect a Clerk and Printer—thus forming a combination to get rid of the two old factions. The Republicans can by union put in their candidate for Speaker, while the Democrats will require two ballots.

The President to-day sent in his Message.

From Europe.

The steamship Black Warrior arrived at this port on the 28th inst., with Liverpool dates to the 18th.

Great preparations were being made for a grand celebration of the birth day of the late Captain General Espartero.

Freights were slightly improved.

New York Financial Matters.

Weekly bank statement shows an increase of $488,000 in specie, and an increase of $2,000,000 in loans, $1,000,000 in circulation, and $3,000,000 in deposits.

The City Comptroller has published upon Change the annual statement of the city finances, making the interest alone of receipts from other sources an increase of $482,000 over last year. He urges economy and reforms.

In the Board of Aldermen, the resolution was passed by 12 to 6, to abolish the office of Chief of Police. It will be reinstated, however, as soon as it can be proved that Mr. Matsell, the incumbent, is an alien.

The appeal of Fisher Ames Kent, the defaulter, has been dismissed by the Supreme Court.

At noon to-day 29 out of the 30 companies marched in procession to Lafayette Square and surrendered their apparatus, in consequence of the non-payment of the $2,500 appropriated by the Common Council, and other alleged neglect upon them by the government.

From Europe.

The report of the engagement between the Pro-Slavery and Free State parties, already published by telegraph, is confirmed by the following extract from the proceedings of the Missouri Legislature, as published in the Herald of Freedom:

The following despatch was received this morning, and read to the House:

"Lawrence, Nov. 26, 1855.

"To the Speaker of the House of Representatives:

"Sir—I have the honor to inform you that the Governor of this Territory has ordered out the militia of the Territory, to assist the United States Marshal in the execution of the laws of the Territory, and that I am now on my way to Lecompton with a portion of the militia under my command, for the purpose of rendering such assistance to the Marshal as may be required.

"I am, sir, very respectfully, your obedient servant,

"H. Clay Pate,
"Commanding Militia."

The despatch was ordered to be printed.

Flour is lower. Dealers are paying at State 9.25 a 9.37; Western 9.25 a 9.50; Canadian 9.60 a 10.50. Jersey corn 4.37.

From Washington.

From Washington.—The Tribune's correspondent writes concerning the Speakership:

Mr. Washburn of Maine, an old member, has been named and rallying round him, when it is supposed enough cannot be mustered for the first two votes urged more actively.

Nov. 30th. The elements of the administration are in discord. The idea of a humble anti-administration candidate abandoned. The Northwest is in favor of anti-Nebraska candidate, but New York members doubt the propriety of a free fight, in the hope of uniting the opposition between the two governments.

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER.

From Washington

WASHINGTON, 3d

We have beautiful weather to-day. The streets present a holiday appearance. Crowds are wending their way to the Capitol. The galleries of the House are crowded with spectators. Many are unable to find seats.

A request has been made to the President that he will place at the hands of the Associated Press copy of his message, by 1 o'clock, and thus the day of its delivery. If he decides to do so the message will be copied stereotype-plate for stereotype, and transmitted minute over the wires. In any event, a brief synopsis will be telegraphed.

The following is the vote in the House for Speaker. For Richardson 88, Campbell of Ohio 50, Marshall of Ky. 1, Bocock of Mass. 22, Fuller of Pa. 10, Phelps of Mo. 1, Harlan 3, Wheeler 7, Howard 2, Pennington 7, Harlan 3, Wheeler 7, Howard 2, Washburne of Me. 1, and ten others 1 each.

Fourth ballot same as last, except that two who had voted for Richardson were absent, and another had voted for Campbell, and two others changed from scattering candidates, and united for Campbell.

Despatches by the Atlantic represent politics in England as wholly unchanged since the defeat of the Ministry. Mr. Buchanan says that parties in the Cabinet are trying to place the responsibility of our neutrality upon each other, in order if possible, not to offend either Americans or Russia at the same time.

Our government has officially agreed on the principal of Differential duties, or a reciprocal taxation or tariff, according to the value of the cargo, in favor of the vessels bound direct and injurious to the present bound duties and injurious to the present coast trade.

Caucuses are being held to-night.

It is generally understood that the Republicans and Free Soilers will congregate to-morrow, on Banks and Wilmot, respectively, and if they will be sufficient to elect him.

A caucus of Southern K Nothings and National Democrats and Whigs, numbering 75, resolved to reject all fusion with the free soil factions, but have no hope of defeating them.

Messrs Greeley, Weed and Seward have been working all day to fuse the factions and the combination failed. It is conceded. We may look for the organization of the House to-morrow, and the Message on Wednesday.

SECOND DESPATCH.

The National Americans will to-morrow vote for Mr Fuller and endeavor to draw the extreme men out of the Democracy by contending them, the Black and Fuller—thus forming a union against the free soil factions. They deny that the Republicans can by fusion poll more than 100 votes, while 117 are necessary to elect.

The President persists in refusing to print the Message.

From Havana.

NEW YORK, Dec 3

The steamship Black Warrior arrived with Havana dates to the 29th.

Great preparations were being made at Havana for the celebration of the funeral obsequies of Bishop Captain General, Tacon.

The lights were slightly improving the small vessel.

New York Financial Matters.

Weekly bank statement exhibits a decrease of $1,500,000 in specie and an increase of $214,000 in loans, $62,000 in circulation, and $1,372,000 in deposites.

The City Comptroller submitted to the Common Council the annual estimates of city expenses for the city for 1856 making the tax nearly eighteen millions of receipts from other sources $6,420,000, an increase of $632,000 over last year's estimates—the wages to remain and reform.

In the Board of Aldermen, this evening, a resolution was passed by 12 to 6, declaring the office of Chief of Police vacant. A Committee, it will be remembered has been considering a proposition that Mr Matsell, the incumbent, is an alien.

The appeal of Edwin Forrest, in the divorce case has been set down for Wednesday next, in the Supreme Court.

NEW ORLEANS, 3d.

At noon to-day 29 out of our 31 fire companies marched in procession to Lafayette Square, and surrendered their apparatus to the Sheriff, upon payment of appropriations, and other claims put upon them by the city government.

From Kansas.

The report of the engagement between the pro Slavery and Free Soil parties in Kansas, is already published by telegraph, seems to be confirmed by the following extract from the proceedings of the Missouri Legislature. The following letter was received here this evening, and read in the House of Representatives

The James referred to is the river in the vicinity in which Lawrence is situated, and was appointed by the Governor and Legislature.

The despatch was dated at Weston Nov. 27th Gov. Shannon has ordered out the militia against Lawrence. They are now in open rebellion against the law Mr Jamesship in danger.

PHILADELPHIA, 3d

By the arrival in this port of the bark Chas. E Lee, we have Western news to the 15th. At Aux Cayes, business was exceedingly dull Money and notes and American produce in very limited supply. The new coffee crop was coming and none coming to market.

It has error has been successful among the foreign classes in raising a respectable force to the administration are discordant that the idea of a simple anti-Nebraska contest can be abandoned. The Northwest is unanimous for an anti Nebraska candidate, but many of the New York members doubt the propriety of it, preferring a free fight to the contest, to avoid expelling any friend.
